

Monster Bass Trap with FlexRange Technology

DESCRIPTION

The **Monster Bass Trap with FlexRange Technology** is our most effective low end absorber, measuring 167mm thick. The patented design of the **Monster Bass Trap** allows it to absorb as much bass as possible without over absorbing the high end, which leaves life inside the room. Customizable options include Full Range/broadband or Range Limiter membrane system. Available in 9 standard Camira Cara fabric colors.

Available Sizes	Weight per panel	Quantity per Box
600mm x 1200mm	7.75 kg	1 panel
600mm x 600mm	4 kg	2 panels
300mm x 1200mm	4 kg	2 panels

- Constructed with Knauf Insulation with **ECOSE** technology
- Constructed with environmentally sustainable **Hanson Plywood Limited** which has achieved F.S.C (Forest Stewardship Council) as well as PEFC (Programme for the Endorsement of Forest Certification Schemes) certification and registration

AVAILABLE ADD-ON OPTIONS
